

The Bartlett Planning Board will be holding a Public Hearing on Monday, February 4, 2019 at 6:00 pm at the Bartlett town hall to consider the following proposed amendments to the Bartlett Telecommunications Ordinance. These amendments were prepared by the town's attorney in order to bring the ordinance into compliance with the requirements of RSA 12-K. Some items were also re-worded. This re-wording was done to clarify the items, but did not change the intent or meaning.

Two versions of the amendments are provided herewith. One depicts the wording of the original ordinance which shows the wording proposed to be deleted as ~~striketrough~~ text, and the new wording being proposed in **bold** text. New wording to be added to already-bold text, such as in headings, is shown as being underlined.

The second version is a "clean" copy of how the ordinance will read after the amendments are adopted.
