SOLAR ARRAY PERMIT

This permit is for the installation of solar equipment on property located in the Town of Bartlett, NH. This permit only covers solar equipment that is being affixed to existing structures and does not project outside the existing footprint. **NOTE: *If the solar equipment requires an additional structure or is not affixed to an existing structure, a regular building permit application is required as the new structure must meet setbacks.*** Solar equipment is assessable and will change the assessed value of the property. Fee is \$10.00.
